

CMMC COMPLIANCE DEFEND, PROTECT, PRESERVE

Safeguarding America's Cyber Defense and Protecting the Warfighter

Cybercrime is at an all-time high, U.S. Department of Defense (DoD) contractors face new challenges such as compliance, regulatory changes, cyber threats, and emerging technologies.

The U.S. DoD released The Cyber Security Maturity Model Certification (CMMC), intended to reduce unauthorized disclosure of Controlled Unclassified Information (CUI) and Federal Contract Information (FCI). The CMMC framework consists of 3 levels, each with specific controls and objectives.

95% of DoD contractors must meet these CMMC requirements. **Failure to be CMMC compliant puts contractors at risk for being able to bid on, retain, or win DoD contracts.**

Ready To Serve You

As a certified CMMC Practitioner Organization, Bulletproof has been leading the way in assisting organizations and partners in meeting rigorous standards for many years, allowing you to allocate your time to your business's top priorities.

Interested to partner with Bulletproof to ensure your customers are CMMC-compliance ready?

Simplifying Your CMMC Steps

Phase 1

Determine requirements - how the organization receives, transmits, and stores Controlled Unclassified Information and Federal Contract Information.

Phase 2

Perform a gap analysis to identify controls not met and provide a roadmap for readiness, ensuring a successful 3rd party assessment.

Phase 3

Implement remediation plan - Bulletproof can help you develop and remediate to ensure you will meet CMMC requirements.
